

Apontadores

passagem de valores

- por referência
- por valor

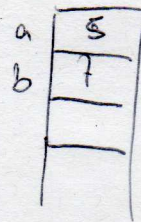

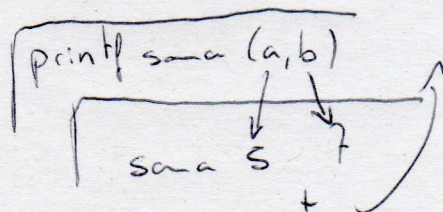

```
int main( )
```

```
{
  int a=5, b=7;
  printf("Soma = %d", soma(a,b));
```

```
{
  int soma (int i, int j) .      *
```

```
{
  return i+j;
```

```
{
```

```
*
int soma (int *i, int *j)
```

```
{
  return *i + *j;
```

```
{
```
