

Exemplos:

Rem 2
Rem 13

```
List remList (List l, int elem)
aux;
{
  if (!l) return l;
  else
    if (l->valor == elem)
    {
      aux = l->seg;
      free (l);
      return (aux);
    }
    else
    {
      l->seg = remList (l->seg, elem);
      return l;
    }
}
```
